PROFESSIONAL SUMMARY

Software Engineer with 1+ year of experience working on full-stack and enterprise applications using TypeScript, JavaScript, Python, React, Next.js, and Node.js. Experienced in backend engineering, REST APIs, system design, authentication/RBAC, databases, and cloud deployment across the software development lifecycle.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, Java

Frontend: Next.js, React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, NestJS, REST APIs, FastAPI

Database & ORM: MongoDB, MySQL, PostgreSQL, Prisma

Cloud & DevOps: AWS, Docker, Git, GitHub, GitHub Actions, Vercel, Supabase

AI & ML: NumPy, Pandas, LangChain, Scikit-learn, RAG, LangGraph

Architecture & Engineering: System Design, API Design, RBAC, Multi-Tenancy

PROFESSIONAL EXPERIENCE

Software Development Intern | The Fishin Company | Hyderabad | July 2026 – Present

- Contributing to a full-stack ERP application for digitizing aquaculture operations, working across frontend, backend, database integration, and operational workflows.
- Implementing authentication and role-based access control (RBAC) to support secure, role-specific access across operational modules.
- Working with a custom design system and reusable UI components to maintain consistent application interfaces.
- Working on multi-tenant architecture and tenant-level data isolation to separate organization-specific data and access. Supporting AWS deployment and cloud configuration for the application.
- Contributing to 5+ ERP modules, covering authentication, RBAC, tenant management, and aquaculture operational workflows.

Software Developer | Deepvibe IT Solutions Pvt Ltd | Aug 2025 – July 2026

- Owned end-to-end development of a driver booking platform, working across system design, frontend, backend, database, APIs, integrations, and deployment as the primary developer.
- Implemented customer, driver, and admin workflows including authentication, RBAC, booking management, dashboards, and operational features.
- Implemented REST APIs, backend business logic, database models, input validation, and authentication using Node.js, Express.js, and MongoDB.
- Worked on real-time application functionality and PWA support, integrating frontend workflows with backend services.
- Worked on 6+ core modules, covering customer, driver, admin, booking, authentication, and operational workflows.

EDUCATION

B.Tech – Artificial Intelligence & Data Science | 2021 - 2025

PACE Institute of Technology and Sciences, Ongole | GPA: 8.15/10

CERTIFICATIONS

- | | |
|--------------------------------------|---|
| • AWS Cloud Foundations – AWS | • Machine Learning with Python – IBM |
| • AWS Data Engineering – AWS | • Next.js Certification – Udemy |

ACHIEVEMENTS

Solved 100+ LeetCode problems using Python covering core DSA fundamentals.
